ABOUT MYSELF

I am a dedicated front-end web developer with a strong focus on React and Next.js. With a passion for solving complex challenges, I thrive in collaborative environments and value the power of teamwork. Constantly seeking opportunities to enhance my skills, I am currently mastering the MERN stack (MongoDB, Express, React, Node.js), and have also used GraphQL, Prisma ORM etc. to become a full stack developer. I have completed projects with all of the mentioned techs which I have enjoyed making. Committed to continuous learning and staying up-to-date with new technologies, I am excited about building impactful applications and contributing to innovative projects.
